معرفی شرکت

شرکت مشاوره مهندسی و بازرگانی سیما سنج صنعت در سال ۱۳۹۵ تأسیس گردید و با بیش از ۲ سال سابقه در زمینه تأمین کالا و ارائه راهکارهای نوین مهندسی با برخورداری از توان بالایی در عرضه طیف وسیعی از کالاها و خدمات صنعتی از بازار اروپا آسیا و کانادا در خدمت مشتریان خصوصی و دولتی می باشد.

این مجموعه با بهره گیری از تجارب معتبرترین سازندگان اروپایی و با بهرمندی از دانش متخصصین مجرب ما در لیست منابع شرکت هایی چون شرکت بهره برداری و تعمیراتی مپنا، پالایشگاه تهران و آبادان، شرکت فولاد خوزستان، شرکت اپال پارسیان سنگان، شرکت صنعتی و معدنی چادرملو و چندین شرکت دیگر قرار داشته و بدین منظور تأمین نیاز مشتریان با بیشترین دقت در کوتاه ترین زمان ممکن امری مهم بوده و در اولویت کاری این شرکت قرار داده میشود.

این شرکت در حال حاضر نمایندگی رسمی شرکت اس آر جی انگلستان (SRJ)، شرکت ای تی اس کانادا (ATS)، شرکت آنتونیوس هلند (ANTONIUS)، شرکت پولسارلوب کره جنوبی (PULSARLUBE) و دارای تفاهم نامه همکاری با شرکت آی ام اس هلند (IMS) می باشد.

About the Company

Impressive network of industry leaders including but not limited to:

Our Network

برخی از مشتریان این شرکت عبارت اند از:

همچنین شرکت سیما سنج صنعت در وندور (لیست تأمین کنندگان) شرکت های زیر ثبت شده است:

شرکت پتروشیمی جم، شرکت بهره برداری و تعمیراتی مینا، شرکت سیمان اسپیندار، شرکت فراب، شرکت معدنی و صنعتی چادرملو، پالایشگاه نفت آبادان، شرکت آب و فاضلاب استان تهران، شرکت فولاد خوزستان، شرکت پالایش نفت تهران و شرکت اپال پارسپان سنگان.

Our Customers

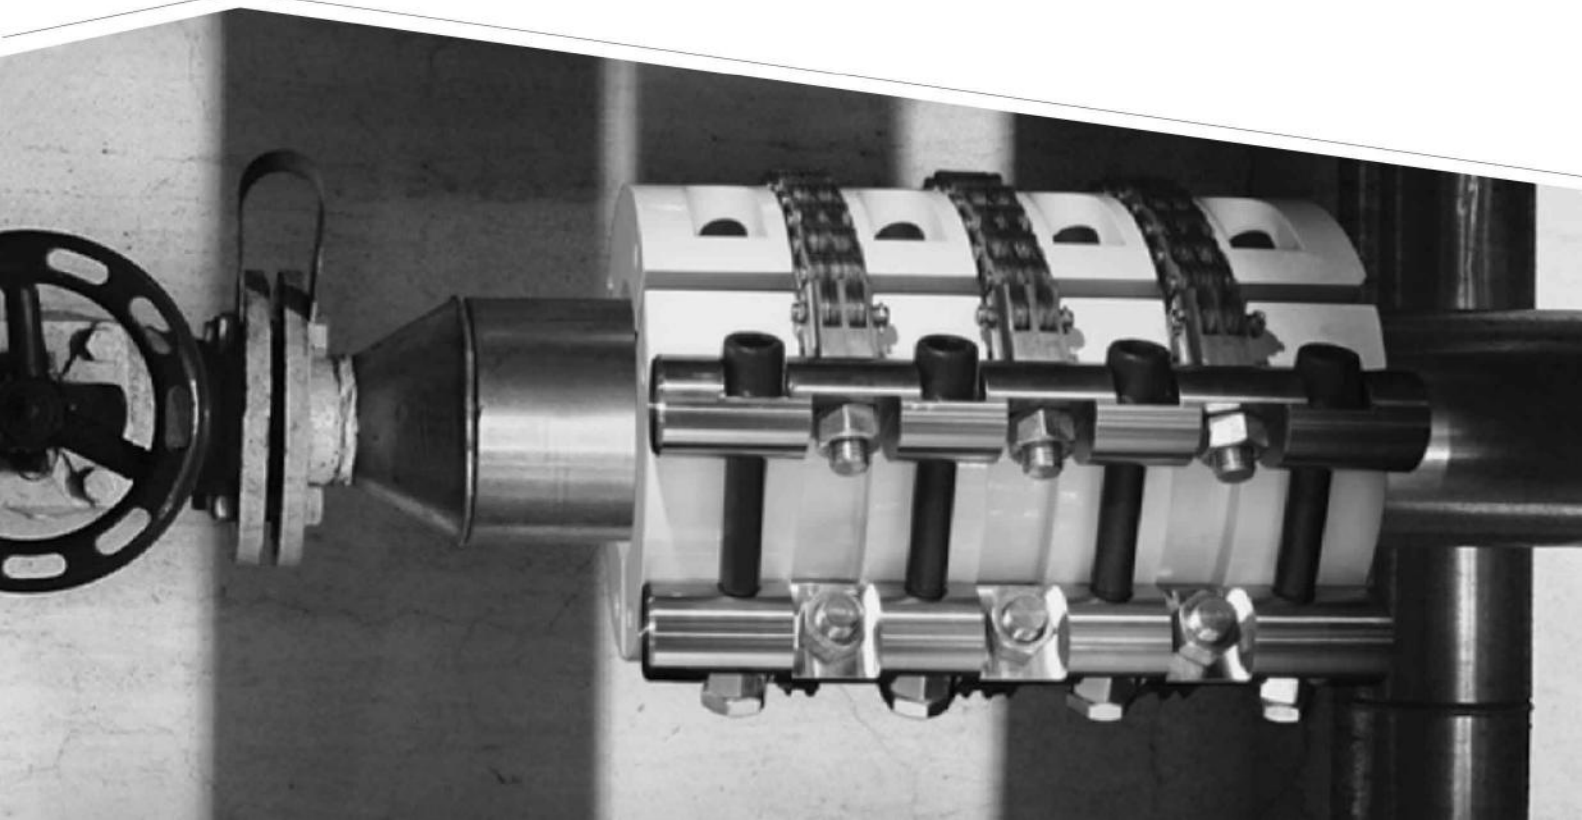

Simeng and SRJ Technologies

UK design engineering company Snap Ring Joint Limited has developed a range of breakthrough, non-welded technologies to connect and repair process and service piping, as well as transport and distribution pipelines. Originally designed (to meet the rigorous standards of the oil & gas industry, the Snap Ring Joint (SRJ and Triple Shell Repair Clamp (TSRC) product ranges also have applications in chemical processing, shipping, desalination, mining, agriculture, domestic and industrial plumbing, and the fire service. The SRJ is also being developed and tested for hydraulic applications

The Snap Ring Joint (SRJ) & Triple Shell Repair Clamp (TSRC) has applications in:

- OIL & GAS INDUSTRY
- CHEMICAL PROCESSING
- SHIPPING
- DESALINATION
- MINING
- AGRICULTURE
- DOMESTIC PLUMBING
- INDUSTRIAL PLUMBING
- THE FIRE SERVICE

Since 2017 Simeng is officially represent SRJ's products in Iran. Simeng is available to support the local market using complete product inventory in Tehran.

Simeng and Antonius

Antonius is a leading producer of complex shapes, vesselheads, cones, expansion joints and other special products in exotic and special materials. Almost 80 years of craftsmanship in shaping metals brought us to the level we are at right now.

With our extensive knowledge of material grades, the best welders in the industry and our special machines we can produce high quality products in special material grades and in all sizes!

Antonius is also your ideal partner for the manufacturing of (large or small) standardized series products like vesselheads, cones or expansion bellow.

At the back of 23rd Iranian Oil and Gas Expo, Simeng and Antonius came to market introductory agreement. Simeng is ready to consult and convey Iranian local requirement for manufacturing and shipment directly from Rotterdam or Antwerp.

Simeng and Industrial & Marine Solutions (IMS)

Industrial Marine Solutions (IMS) provides custom-built complete energy solutions for marine, offshore, industry and the oil and gas sector. Our reliable products combined with an expert staff mean you are guaranteed high quality and quick service.

The strength of IMS is that all the elements of the energy solution are handled in-house, from installing a new engine up to a complete propulsion system, and from putting together a generator set through to a complete energy unit. In short:

IMS creates a turn-key total energy solution for you.

IMS collaborates with Simeng as the market introductory partner in Tehran and ready to offer consultation in your projects.

Simeng and ATS Electro Lube

ATS Electro-Lube has been the driving force in the automatic lubrication market for nearly 35 years. The company was born in 1982 when ATS engineering group solved the industry's long-standing problem-safe automatic lubrication.

Why you should use ATS Electro-Lube?

- Dramatically reduce maintenance from hundreds of hours to just minutes per year
- Install units in seconds, for up to 24 months completely hassle-free lubrication
- Reduce wear & corrosion of components, eradicate contaminant ingress
- Maintain machinery & bearing health to ensure full life expectancy
- Economical long term lubrication solutions with ATS multi-point installations
- The most reliable and durable lubrication methods available today
- Reduce lubricant costs and avoid destructive over-lubrication & under- lubrication
- Significantly lower costs of repairs, replacement parts, and lost productivity

As a long standing local distributor of ATS products, Simeng is ready to provide Iranian end users with technical consultation, and offer the best product fit to your application.

Simeng and Pulsarlube

Utilizing patented cutting edge microprocessor technology, Pulsarlube provides the most innovative and reliable automatic single point lubricator on the market.

Backed by years of research and development Pulsarlube offers a wide range of superior products to meet the needs of the customers.

Why Pulsarlube

Many organizations are aware that excellent lubrication is a crucial step and a good investment to optimize machinery life. It can be difficult to find the right way, the right time and the right amount to lubricate while determining what the best lubrication solution is for your machinery because optimum lubrication practices require skill, time, manpower and money. Pulsarlube offers a variety of lubrication products to solve all of your lubrication needs.

In accordance to official distribution agreements, Simeng is now available to assist you with the sound and economic automatic lubrication system, to optimize your maintenance costs and prevent discharge damages.

Simeng and TEC.MA srl

A dynamic organizational structure, the continuous research, the consolidated experience combined with high quality allow you to choose a reliable and timely supplier, who can guarantee strength and continuity to its partners.

The targets it has set itself are clear and precise: the maintenance and improvement of product quality, the constant high level of customer support the dependability of the delivery and the fulfilment of all required standards. The lubricant being used is visible inside the lubricator and can be checked from a distance. The lubricator can be installed in any condition, including dangerous; inconvenient, covered locations. Any lubricant viscosity can be used. Lubrication is continuous; no solids are allowed to accumulate; Grease will not dry up; the lubricator can be installed in any position, including under-water locations.

Simeng is acting as local distributor of TEC.MA products in Iran with a quick turnaround taking advantage of available stock in Tehran.
