

Safir Soraya company is capable of designing and manufacturing intelligent and automatic systems, especially in the field of laboratory equipment. Some of the company's products include: types of high-speed, ultra-high-speed, online, rotary, monitor data loggers, types of vibration meters, shock meters, dynamic accelerometers, 4-probe resistance meters, I-V current-voltage characteristic diagram devices, types of simple, accurate, automatic, dual syringe pumps, dispensers, diluters, Braille printers and engravers, CNC tables with digital rulers, soraco.ir Tel: 09215818788

INSTRUMENTATION AND AUTOMATION

8 channel vibration gauge

Use items:
Vibration data registration during testing and testing
Dynamic data records such as vibration, acceleration, impact
A...
