

Manufacturer of all types of inflatable structures and trampolines and all equipment for children's homes, kindergartens, mini parks and playhouses Viji Kala online store has started its activity by producing, importing, preparing and distributing products from the best and most reputable domestic and foreign brands with the aim of providing the best game equipment and developing recreational and entertainment spaces. All structures are made of Korean tarpaulin and Turkish yarn, which have a 2-year warranty and 5-year after-sales service, along with system registration and a standard mark. The construction and delivery time of wind structures is a maximum of ten working days. You can customize your desired design with the desired color scheme.
