Podsan Network Communications

Podsan Network Communications started its activity in the Iranian network market in 2007. The word Podsan consists of two words, Pood, which refers to tar and Pood, and San, which is a similar suffix, which is reminiscent of The concept is the fabric of communication. At the beginning of our activity, we established Podsan in Arak city and in 2010, in order to advance our strategic goals, we moved our place of activity to Tehran and launched our field of activity under the name of Ryan Shabka and launched the website www.rayannetwork.com. We have spread all over the country. From the beginning of 1396 and by making changes in the goals of our businesses and considering that the names similar to Ryan Shabka in the network market had become very high, we decided to provide services to our cu...
