

The leading generation agricultural company with the brand and brand \ "Agha Mohandes \ " and registration number 555771 was formed to be the first in the field of summer plants. This complex is the first and largest summer consulting center in the country. Using the knowledge and collective experience of the country's agricultural elders, including the country's top professors and technical experts, as well as the country's exemplary farmers. Thus, Mr. Mohandes provided his first services in the form of free advice to summer farmers. Satisfaction and acceptance of farmers with compassionate services and of course with the quality of this collection caused this collection to go through the steps of growth and development quickly. Now this collection is considered as the largest and most spe...
