

Rayan System Group has started its activity in the field of selling banking and store equipment for about 18 years and the main focus of the group is providing solutions with the lowest cost and the highest quality, according to this goal, we have tried to introduce the best brands to our customers so that they can experience a safe purchase with us. Also, all the products on the site are sold in original form. In addition, repairs of all PVC card printing printers, receipt printers, label printers, barcode readers and store cash registers are accepted by the specialized team and are repaired after notification of defects and defects and customer approval. Sale of all types of printers for printing cards and PVC ribbons and store systems (barcode printer, receipt printer, queue machine, ba...
