Production and trading of wood and cellulose industries

We have entered the wood industry since many years ago, we started our work with chipboard press and wooden doors with natural veneers about 50 years ago, later with the appearance of external raw MDF and white formica veneers and color in the country and we decided to be the first white and color formica press in the country by launching a cold press line for these products, importing raw MDF and importing formica covers from India and from reputable factories such as MERINO and MILTON was the next path that We stepped into it, we became the largest importer of white formica, we became the largest warehouse of colored formica, we created whiteboard production workshops in the country. Later, we added creativity to our work in the field of formica coatings (HPL)) and by acquiring the excl...
