

Chente Meh Mitra North Information Technology Company

The software engineering team of this company has taken its initial steps by preparing financial, accounting, and... Chente company's software products have been implemented with the aim of supplying to all active industries in the country and with the approach of simplicity and user-friendliness along with other facilities. Therefore, the opinion of most of the customers of Chante company's products is based on the fact that all products, while observing beauty and user-friendliness, no need for financial and accounting courses, simplicity and speed of user operation, provide the user with very significant facilities. And in recent years, according to the needs of today's humanity, most of the manufactured products have gone to smart mobile phones, and we have not been an exception to thi...
