

Fars Machine has an official license from the Ministry of Commerce and also has a special license for the export of pomegranate seeding machines. We have been working in the field of fruit juice production lines for more than two decades and we have started our official activity since 1377 and we have been able to provide well the needs of large factories and small production halls and always use the current experiences and research and We have made the best use of the initiative to solve the existing problems in production efficiency. This unit has been able and has the honor of attracting the attention of foreign manufacturing factories as well as providing its practical and scientific experiences to academics and so far some samples of the machines made by this unit have been analyzed a...
