PRODUCT CATALOG

Barysun

Barysun is one of the TSR Group brands that specializes in producing a wide range of industrial salts. Various types of barium salts, including barium sulfate, barium carbonate, and barium chloride, and other compounds such as sodium sulfide and sodium carbonate are part of our products. Also, the production lines of strontium salts and other products of barium compounds will be launched soon to supply the materials needed for glass, tile and ceramic glaze and agricultural pesticides industries.
