

Tabas Golden Coal Trading Company

Zarin Coal is the final product of Mendi Abad Lead and Zinc Mines Development Company, one of the subgroups of Zarin Industrial and Mining Group. This company started its activities in 2017 with the aim of exploiting the largest thermal coal mine in the country, located in Tabas city (South Khorasan province) with a reserve of more than 50 million tons. Currently, the company is building the most advanced coal processing plant with an annual production capacity of more than 250,000 tons, as well as setting up the first specialized coal research institute in the country. These measures are an important step in the direction of scientific development, job creation, and the realization of the country's economic goals.
